WE HAVE ADVERTISED THIS RFP IN DIFFERENT LANGUAGES; HOWEVER, DUE TO LIMITED RESOURCES FOR TRANSLATION SERVICES, ALL PROPOSALS MUST BE COMPLETED IN ENGLISH.

Each year Seattle Parks and Recreation (SPR) offers a limited number of food service concession permits available in the parks listed in this RFP. Food service businesses submit a written bid/proposal for these permits. The bid responses are evaluated on the criteria contained in the “EVALUATION” section. Bids must outline the fees that PROPOSER is bidding to propose paying to SPR each month of the permit period. The fees outlined below (pg. 37) are **minimum** monthly payments only. Bids are evaluated on fees proposed to SPR.

The information within a proposal is your sole responsibility. You are being asked to provide a clear and concise explanation of your experience in the proposed concessions, provide verifiable client and

business references and clearly explain your proposed services for the park. Your financial bid should be clearly written in the space provided and signed by an individual or individuals legally authorized to commit your organization or company.

The Department is seeking and will select concessionaires that best demonstrate the ability to provide healthy, innovative, affordable, safe and reliable services to park patrons while paying reasonable concession fees to the Department. You are encouraged to offer services and/or products that would be complimentary to the existing uses of the park. Previous concessionaires will not have an historical use advantage over new concessionaires during the review and selection process.

RFP EVALUATION

Parks Department staff will review the Proposals submitted for the RFP process. Parks invites operators of food trucks, carts and other self-contained food service businesses, though some locations may not be appropriate for all types of vehicles, trailers or carts. Some locations may lack vehicle access, others may lack power, water or amenities, and only fully independent vehicles may operate. The panel will score the Proposals, determine the highest qualified Proposals and will interview the Proposers if interviews are necessary, and make a final recommendation regarding the award to the qualified Proposers offering the best services to park users and return to the Department. Generally, if all Proposers offer sufficient references and experience then the Proposer offering the highest concession fee and most appropriate services for the park will be awarded the permit. The Department reserves the right to refuse any and all proposals. Proposals cannot be accepted for the sale of tobacco products, alcoholic beverages and products in glass containers.

SECTION I – INFORMATION REGARDING REQUESTS FOR PROPOSALS - PARK CONCESSIONS AT VARIOUS DEPARTMENT PARK LOCATIONS.

PROPOSAL DUE DATE – MONDAY, MARCH 13, 2017 BY 4:00 PM

OVERVIEW.

This REQUEST FOR PROPOSAL (RFP) represents a publicly advertised and competitively awarded solicitation by the City of Seattle, Department of Parks and Recreation for Food Trucks, food carts and other Seasonal Concessions Operators for selected parks. Seattle Parks and Recreation is seeking proposals from operators for specific locations in parks. Some park locations can only accommodate completely self-sufficient food truck vending while others accommodate temporary carts or contain existing buildings that support concession activities. The Department is seeking and will select concessionaires that best demonstrate the ability to provide healthy, innovative, affordable, safe and reliable services to park patrons while paying reasonable concession fees to the Department. You are encouraged to offer services and/or products that would be complimentary to the existing uses of the park. The Department reserves the right to approve or disapprove any proposed business activity. **Food Trucks:** while a few locations can only accommodate carts due to their limited size or other issues, most Parks locations work well for food trucks and trailers. Peak use of most Parks, and hence peak demand for food is usually on weekends or later in the afternoon and early evenings, so Seattle Parks locations work very well for businesses already committed to one or more SDOT street vending locations during the week. Parks welcomes proposals for food trucks and other vendors who only wish to service a specific location only one or two days a week.

All operators of food trucks, food carts or other food service concessions will be required to provide some healthy food options in their menu. For information about what qualifies as “healthy” or “healthier” food items, please refer to the Seattle Parks Healthy Menu Criteria on pages 30.

If you are awarded a Concessions Permit you may NOT sell, transfer or give the concession rights to anyone else. You must operate the concession that is awarded to you.

All proposals become the property of the Department and are subject to Public Disclosure laws.

Juice – fruit or vegetable that contains 100% juice		
Water, pure	**Flavored or vitamin-enhanced fitness water, sparkling water	herb-infused waters and caffeinated waters
	low-cal iced tea and diet sodas	Regular sodas and sports drinks

*Portion Size - Portion size is not defined for any items, but smaller portion sizes are preferred.

Healthiest – must meet both criteria:

- 3 grams of Total Fat or fewer per serving (Nuts and seeds exempt from restrictions.)
- 30 grams of Carbohydrates or fewer per serving (All candies are considered unhealthy. Fruit in any form is permitted, regardless of carbohydrate count).

Healthier – must meet both criteria:

- 5 grams of Total Fat or fewer per serving (Nuts and seeds exempt from restrictions.)
- 30 grams of Carbohydrates or fewer per serving (All candies are considered unhealthy. Fruit in any form is permitted, regardless of carbohydrate count).

Rationale – Snacks*

- Fat: It was determined not to differentiate saturated fat from unsaturated fat. When total fat is considered, saturated fat tends to be low.
- Nuts and seeds: Nuts and seeds are exempt from the fat guidelines, because they are high in monounsaturated fat, which can help lower “bad” LDL cholesterol and maintain “good” HDL cholesterol. Nuts and Seeds have been shown in many studies to reduce the risk of having a heart attack.
- Carbohydrates: The level of carbohydrates was set at 30 grams per serving to include more food items. All candies are considered unhealthy, regardless of carbohydrate content.
- Fruit: Fresh fruit is best, but fruit in any form (canned, fresh, and dried) was not restricted by carbohydrate standards because it provides vitamins, minerals, anti-oxidants and dietary fiber that are beneficial to an overall balanced diet.
- Portion size: Portion size is not defined, because there is variability among products. However, the preference is for smaller-portioned products.

Rationale – Beverages

- Milk in any form provides vitamins and minerals, but the low-fat and non-fat versions are preferred. Flavored milks are permitted.
- Water: Pure water is preferred, but water that is flavored maybe more attractive to someone who doesn’t drink plain water. The vitamin-enhanced waters may benefit people with such nutritional needs, although pure water is the healthiest choice.
- Juice: Fruit and vegetable juices should contain 100 percent juice.
- Carbonation and caffeine: Carbonation in moderation does not have a significant effect on nutrition. Avoid caffeine-some low non caffeine drinks may be considered. Carbonated low-calorie beverages may be another option for people who don’t like milk or plain water.
- Low-calorie: Beverages containing 50 calories or fewer per 12 oz serving were deemed healthier options.

**Portion sizes for juice is 6 ounces and for flavored milks is 8 ounces.

- Healthiest
- Milk – Low fat (1%) or Non-fat
- Water
- Juice – 100% fruit or vegetable juice
- Healthier Water – Flavored or vitamin enhanced Low-Calorie Beverage or diet sodas
